-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment and response filed on 3/14/2008 has been entered and overcomes the rejections to the claims.

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The abstract of the disclosure is objected to because there appear to be two different abstracts submitted by the Applicant on 11/29/2004. The Applicant is to indicate which abstract is correct and is to be published.

Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

Claims 5 and 7 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 5, the prior art of record neither shows nor suggest a method of manufacturing plasma display panels comprised of, in part, forming a film of MgO on a substrate in an evaporating room, the substrate being held by one of a plurality of substrate holders, the substrate holders comprising a plurality of elements, and repeatedly using the substrate holders, such that when the MgO film is formed on a substrate, at least one substrate holder in the evaporating room is coated with MgO film during forming the MgO film on a substrate, and at least one holder in the evaporating

room comprises elements not coated with said MgO film, along with the rest of the limitations of the claim.

Regarding independent claim 7, the prior art of record neither shows nor suggest a method of manufacturing plasma display panels comprised of, in part, repeatedly using the substrate holders for forming film on a substrate, the repeated use comprising a manufacturing cycle, wherein each time film is formed on a substrate in the manufacturing cycle, other than the first time the film is formed on a substrate, at least one substrate holder in the evaporating room is coated with the film during forming film on a substrate, and at least one holder in the evaporating room is not coated with said film, along with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. This application is in condition for allowance except for the following formal matters:

Please see the above Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
